

24th November 2020

Dear Parents/Carers,

TA led development project:
Rainbow Playgrounds

There is a new and exciting project to improve and update the Early years/Fitzebra courtyard, Primary and Secondary playgrounds.

The aims of the project is to make playtimes and lunchtimes fun and accessible to all by developing the outside spaces to be Multi-sensory, wheelchair accessible and able to provide opportunities to improve and develop social play skills at all abilities and ages.

In order for this development project to be as successful as possible we need your help.

We would really appreciate any donations of materials that we could use with the students to transform our outside spaces.

We are looking for items such as:

Old tubing/guttering/pipes

Large Instruments

Sandpit toys and kitchen bits & pieces

Bikes/trikes/scooters

Non-toxic Paint

Plants & Herbs

Anyone that has any spare time that would be willing to help out.

Please see the attached images to see what we are hoping to achieve.

Thank you.
