

What is a suffix?

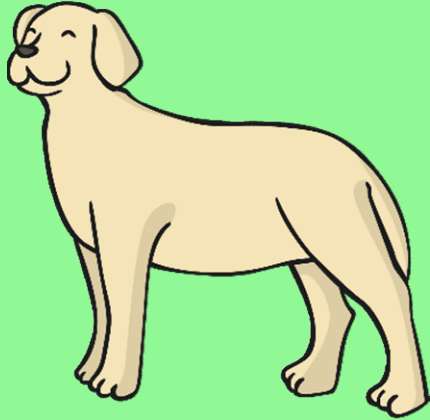

A suffix is something that we add to the **end** of a word that changes its meaning.

word _ 

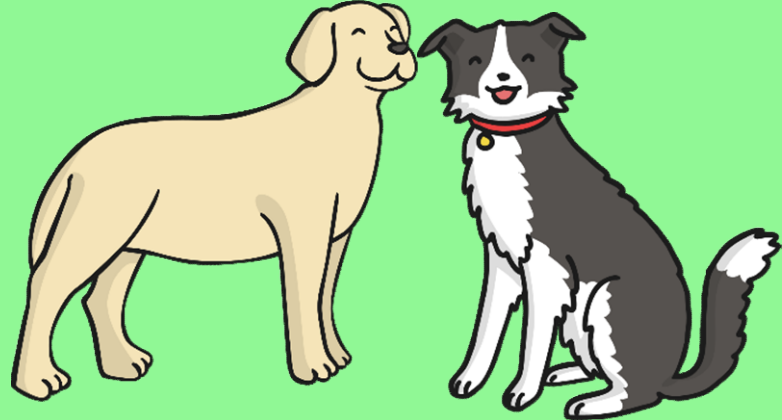

-S

can be added to nouns as a suffix.

This tells us that there is more than one noun.

one dog

two dogs

-es

can be added to nouns as a suffix.

You can hear when a suffix is **-es** and not **-s** because the **-es** makes an extra syllable in the word.

foxes

buses

-ing, -ed and er

can be added to verbs as suffixes.

For example:

pull
pulling
pulled
puller
