

FAMILY NEWSLETTER 2nd July 2020

Dear Families

I realise I have not been in contact for a few weeks, rest assured we continue working behind the scenes to maintain our current provision and planning for September.

Plans for the rest of the summer term

We are continuing to run the same onsite and home learning provision for the last 3 weeks of term as we have been. We will consider new requests for part time school attendance, but have no plans to increase the number of days current pupils are onsite for. The safety of our staff and families remains paramount.

Each pupil should be receiving this week an end of year letter in the post from their current class teacher. From the week beginning 6th July families will receive contact from your child's new teacher, you can expect to also receive the usual class letter and photo board.

Ruchi Datta, Granta's new head teacher from September is also coming into school weekly for the rest of the term.

6th Form Leavers

6th Form are working hard on organising an end of year finish for these students and Julie Lloyd will be in touch about those plans.

Medicines

If we have medication in school for your child, and they are not accessing onsite provision currently, then we will continue to keep their medication at school through the summer holidays, unless you contact school to say you wish to collect it. If your child is accessing school then we will aim to send any medication home with them in the usual way.

Summer Holidays

We will be closed over the summer holidays, as we need time for planned maintenance works and reorganisation in preparation for September. Cambridge Joint Playschemes will be running their holiday scheme at Granta for 2 weeks. They cater for pupils aged 8-19 years and have limited spaces available. If you want to request a space for your child please email Carol at camjointplay@btconnect.com and make it clear in the email your child attends Granta.
