## Introduction

This booklet provides basic information about the choices young people will have when they leave school. Educational options are broken down and listed by level. Your son or daughter's school and their Additional Needs Pathway Adviser will be able to advise you which levels to look at. However, please be aware that the colleges will also need to complete their own assessments before confirming which course would be the most appropriate for your young person.

Information on some of the other key issues that will change for young people over the next few years is also addressed. This includes education transport, care needs, money and benefits. There is also information about what your son or daughter may be able to do when they have completed their education and are ready to move out into the world as adults; whatever level of support they may need to do so.

This document **does not** currently include:

- Options above Level 1 (GCSE at D-G grades)
- Higher Education and related benefits

There is a great deal of information about general options and courses as well as other information on www.youthoria.org

Please speak to your Additional Needs Pathway Adviser for further information (contact details on p37).

Please note that this booklet gives basic information correct at the time of printing. You are advised to check for details, amendments and updates before making any final decisions. If you would like us to add anything or find something that is inaccurate please contact a member of the 14-25 Adulthood Additional Needs Team (pg 37).

## Moving On – Choices and Options

A young person can leave school on the last Friday in June if they will be 16 by the end of August. However there is a requirement for all young people to stay in education or training until they are 18. This can include local schools, colleges, training, apprenticeships, and even includes part-time learning where a young person also has a job.

When your son / daughter leaves school they are likely to have some or all of the following options available to them, depending on their level of ability, independence and support needs:

- Full-time education at college
- Training either 'work-based' or 'foundation learning'
- Employment open, supported or voluntary
- Social Care Options: supported living, residential care, and community based day activities - could include day centres, part-time college, social firms, community leisure or sport/fitness activities

Many young people leaving school move onto fulltime college programmes, a stepping stone to future options. This gives further time in education to build skills and qualifications and help prepare for work or independent living. It is less common for special school leavers to move straight from school into training or employment. Most special school leavers will be able to go to college to continue to build on their skills and abilities. Some will do courses aimed at particular areas of work; some will do general employability courses, while others will focus on life and independence skills.

College courses tend to last one or two years, but it is common for young people to do one course and then progress onto another. Young people can stay in education as long as they are making progress and there are courses for them to progress onto. Once a course has been completed, it cannot usually be repeated. Special school leavers tend to be able to stay at college for between 2 and 4 years.

Young people may continue to get the support they need funded through the High Needs Funding Block in colleges.

Young people pay no course fees between 16 -18 years. However, fees may apply from 19 years. Advice should be sought from individual colleges.

If, and only if, a young person's needs cannot be met by any of the existing college courses (within or outside the college) then it may be possible to apply for specialist funding so that an individual package can be built around a young person's needs and aspirations. This is often referred to as 'Individual Curriculum Solutions' and is offered through the local regional colleges.

If, and only if, a young person's needs cannot be met by either of these options, they may be able to go to an out of county specialist residential college.

#### **The Local Offer**

All Local Authorities, Schools and Further Education Colleges must publish their local offer. The local offer sets out the provision across education, health and social care for children and young people aged 0-25 with special educational needs and/or disabilities. The local offer will develop overtime and in consultation with parents, carers and young people.

Please visit www.cambridgeshire.gov.uk/localoffer

## **Qualifications and Levels explained**

Schools, colleges and training providers use slightly different terminology when describing levels of achievement and qualifications. A young person usually needs to complete a full level before moving to the next level.

The new GCSE grading structure came in to effect in 2017; English Language/Literature and maths will be the first to be graded from 9-1. Please look at the following link to explain this: https://www.gov.uk/government/uploads/system/uploads/attachment data/file/596393/Grading n ew GCSEs from 2017 v4.pdf

School Levels	Qualification Levels
A Levels	A levels Level 3 Qualifications
4 / 5 GCSEs at grade 4-9	
(old grade A*-C)	4 / 5 GCSEs at grade 4-9
Schools tend to stop using National Curriculum levels to measure progress at this point.	(old GCSE grade A* - C)
	Level 2 Qualifications
4 / 5 GCSEs at 1-3 (old GCSE grade D- G)	4 / 5 GCSEs at 1-3 (old GCSE grade D-G)
	Level 1 Qualifications
National Curriculum Level 4 to 7.	Foundation Learning

National Curriculum Level 3	Entry Level 3
National Curriculum Level 2	Entry Level 2
National Curriculum Level 1	Entry Level 1/ * E1 achievement continuum

## How do I know the level my son/daughter is working at?

In Annual Reviews of your son or daughter's Education, Health and Care (EHC) Plan and/or at the end of each year in their school report, you will be provided with information about the level your child has achieved in each of the curriculum subjects.

The majority of students from special schools will be working between the P Scales /Milestones and National Curriculum Level 3 or Entry Level 3. The majority of courses offered by our Area Special Schools are within these levels.

#### **Foundation Learning**

Foundation learning includes all qualifications and courses between Level 1 and Entry Level 1. Within foundation learning courses colleges are more likely to be able to support young people to learn different things at different levels. This means young people get a longer time to work on areas of weakness without it preventing them making progress in the areas they are interested in.

#### Level 1

These are for young people who have secure maths and English skills and are likely to be able to achieve a full Level 1 qualification, usually within one year, including Maths and English. Most special school leavers would benefit from starting a course within a college's Foundation Learning Provision.

#### **Pre-Entry and Entry Level Courses**

These courses are often suitable for young people with learning difficulties and disabilities, especially if they have achieved at Entry Level, but not at GCSE level. Entry Level 3 courses are also offered as an introduction to some vocational areas and are a good starting point. They are often completed by young people who have achieved some GCSEs at lower grades.

#### \*E1 Achievement Continuum

The qualifications have been developed for learners working between P Levels 1-8 and Entry 1 to have their achievements recognised within a qualification framework. They can be undertaken in schools, colleges, residential centres, training providers and independent provision

This tool allows providers to report achievement against the 10 stage Entry 1 achievement continuum. This continuum allows learners to demonstrate very small steps of progress and enables providers to differentiate between the levels of achievement of learners working within and below Entry 1.

#### **Important**

Full-time college is typically 16 hours a week, which is roughly three days a week. Please talk to your Additional Needs Pathway Adviser (pg 37) and/or your Social Worker on how a young person's week might look once they move on to further education from school.

#### Art and Design

Gateway Level 1 or WJEC GCSE (Level 2)

This is a course that will introduce you to a wide range of Art and Design making processes. We will refer to the work of numerous artists to inform and inspire your own creations. A course in Art and Design is a valuable asset for whichever direction you choose in the future. Come and see where your vision could take you!

#### Construction

Students who follow our Construction course will work towards two qualifications over one academic year. They are:

• Level 1 City and Guilds certificate/extended certificate in Construction Skills.

This programme of study provides learners with an initial experience in plumbing, electrical work, painting and decorating and also carpentry. Assessment is through written and practical tasks.

 Level 1 City and Guilds Health and Safety in a Construction Environment.

This qualification provides access to the CSCS safety card test at operative level and is assessed externally through an online test.

#### **Child Care**

- Btec Level 1 Award in Caring for Children and BTEC First Level 2 Certificate in Children's Care, Learning and Development
- Level 1: Students will develop some of the knowledge and practical skills that they will need in order to care for their own children or for children in a voluntary capacity, such as babysitting.
- Level 2: Through a combination of practical experience and written assignments, these vocational qualifications provide level 2 learners with the knowledge, skills and understanding needed for a career in the sector.

#### **Creative Media**

 Cambridge Technicals in digital media Level 1 and 2

Our dynamic media course examines the evolving relationships between media and culture within contemporary society. Pupils will learn to analyse the huge amount of media messages which they come across day to day.

Each vocational unit offers an opportunity for learners to improve their employability skills, and explore their own creative and artistic talents in a hands-on and supportive environment. The OCR technical qualifications in Media are high quality awards and nationally recognised. The unit choices include but are not limited to: graphic design, print, radio, television, advertisement, film, and animation.

All lessons take place in the Mac Media Suite where some of the software includes: iMovie, Comic Life, Garage Band, Photoshop as well as Google Apps for education.

#### Hair & Beauty

 Level 1, City and Guilds Certificate/Diploma (Introduction to Hair & Beauty Sector)

This course will help learners understand aspects of the Hair & Beauty sector and the skills required to work in this sector. You will engage in a range of practical opportunities connected to the sector including skin and hand care, plaiting and twisting hair and shampooing and conditioning hair.  Level 2, City and Guilds Certificate/Diploma in Creative Hair & Beauty Studies

The certificate course includes a focus on the creative aspect of this sector with units such as, body art design, creating an image based on a theme within the Hair & Beauty sector but also

includes units such as head massage, styling and basic colouring hair. The Diploma course builds on the skills and knowledge learnt in the certificate course and further develops skills in basic cutting, colouring using a range of methods and products, along with different waxing techniques.

#### Health & Social Care

- Btec Entry Level/ Level 1 Award in Health and Social Care and Btec Level 1/2 Award in Health and Social Care
- Level 1: Learners will understand the skills and knowledge needed to work in the sector and to develop practical skills in preparation for employment or progression to relevant higher level courses.
- Level 2: Through a combination of practical experience and written assignments, the qualifications provide learners with the knowledge, skills and understanding needed for a career in the sector or to progress onto relevant Level 3 courses.

#### Hospitality

 VTCT Level 1/Level 2 Award/Certificate in Hospitality

This qualification has been developed to provide an engaging and stimulating introduction to the world of Hospitality. The programme of study will build an understanding of the Hospitality industry. It covers a range of units, including:

- Introduction to the Hospitality Industry
- Working in the Hospitality Industry
- Food Safety and Health and Safety in Hospitality
- Planning, preparing, Cooking and finishing food.

#### L1 or L2 BTEC FIRST IN PERFORMING ARTS

BTEC Nationals in Performing Arts use a combination of assessment styles to give students confidence they can apply their knowledge to

succeed in the workplace – and have the study skills to continue learning on higher education courses and throughout their career. The range of vocational assessments both practical and written – means students can showcase their learning and achievements to best effect when they take their next step, whether that's supporting applications to further education courses or potential employers.

#### **Sport Studies**

 Level 1, Edexcel BTEC Certificate/Diploma in Sport and Active Leisure

This course is for students who have an interest in and passion for the sport and fitness industry.

Students will have the opportunity to study different topic areas such as; Taking Part in Sport; Assisting at a Sport and Active Leisure Event; Taking Part in Exercise and Fitness; Planning your Own Fitness Programme.

 Level 2, Edexcel BTEC Certificate/Extended Certificate/Diploma in Sport Studies

This programme is designed for those wishing to take the first step in preparing for a career in the sports industry. You study two core units - Fitness for Sport and Exercise and Practical Sport. Then to complete the course, you are required to study 2 units from the following list; The Mind and Sports Performance, The Sports Performer in Action, Training for Personal Fitness, Leading Sports Activities. Fitness for Sport and exercise is assessed as an examination under controlled conditions and assessed by the examination board. All other assessments are carried out through coursework internally.

## Individual Curriculum Solutions

Within Cambridgeshire, Individual Curriculum Solutions (ICS) may be offered to young people aged 16-25 with complex or multiple learning difficulties and/or **disabilities if**, and only if, other options have been explored and found to be not appropriate and subject to submission to and approval by Local Authority funding panel

The (ICS) funding enables the young person to study at a Further Education College/or at an alternative setting under the oversight of a FE. College, with a bespoke programme that meets individual needs built around them. Their levels of study, interests and skills will all be taken into consideration.

# The local colleges that offer access to Individual Curriculum Solutions are:

Cambridge Regional College and Huntingdon site (formerly Huntingdon Regional College) – bespoke programmes both on and off site with outside providers, social enterprise firms and approved tutors.

**Peterborough Regional College** – bespoke programmes considered for young people with a range of Learning Disabilities and Difficulties.

**College of West Anglia** – Individualised programmes considered for young people with a range of Learning Disabilities and Difficulties.

**Bedford College**- Individualised programmes considered for young people with a range of Learning Disabilities and Difficulties.

## Specialist Independent College Provision

If, and only if, a young person's educational needs are so complex that they cannot be met locally on existing courses or through Individual Curriculum Solutions (and we have enough evidence to prove this), an application can be made for funding for a specialist residential college out of county. Funding for out of county provision has to be agreed by the Local Authority through a formal panel submission process.

It is expected that the needs of the majority of young people will be met through local Further Education provision. However, if this is not possible, consideration for placement at an independent specialist provision may be explored by the Local Authority. For further information regarding this process please contact your Special Educational Needs Casework Officer.

# Social firms and other inclusive organisations

There are a number of organisations within Cambridgeshire set up by partnerships involving charities, local colleges and businesses. They provide vocational training and work-related activities for people with some sort of disability or disadvantage. Accreditations for young people are offered at entry levels 1-3 in vocational and life skills.

For young people, attendance is normally funded through a college or could be part of an Individual Curriculum Solutions package. For adults, attendance is normally funded by social care or from a person's own benefits.

Training opportunities range from cycle repair to catering, horticultural, IT, arts, crafts and ceramics, drama and performance, retail, printing, music technology, music, woodwork, recycling and customer service skills. The learning opportunities include social skills and personal development, independent living, portfolio building and careers advice and guidance.

It is possible to work towards nationally recognised qualifications. Help will then be provided to move on to a different learning or work opportunity, paid or voluntary as appropriate.

#### WATA (West Anglia Training Association)

WATA are now no longer taking new traineeships/apprenticeships on for the next year due to the need to catch up.

Old Houghton Road, Hartford, Huntingdon, Cambs. PE29 1YB Tel: 01480 435544 Email: apprenticeships@wata.co.uk Web: www.wata.co.uk

Are you looking for an Apprenticeship or Traineeship? Are you looking to learn on the job whilst earning recognised qualifications? WATA offer you the chance to learn the latest up to date skills in your chosen apprenticeship. We also offer Traineeships in Engineering and Construction.

#### Apprenticeships

An apprenticeship is a real job with training which would allow your daughter or son to earn while they learn, whilst gaining a nationally recognised qualification. Apprenticeships take between one and five years to complete and cover 1,500 job roles in a wide range of industries, from Page | 27 engineering to accountancy, public relations to veterinary nursing. Apprenticeships are now available up to degree level and beyond.

#### Benefits of doing an Apprenticeship:

- Earning a salary;
- Training in the skills employers want;
- Excellent progression opportunities, whether looking to study further or climb the ranks within the workplace;
- Increased future earning potential apprentices enjoy marked salary increases when they complete their training, and those completing a higher apprenticeship could see increased earnings of an estimated £150,000 over their lifetime
- Learning at a pace suited to the individual with the support of a mentor;
- Paid holiday.

#### **Apprenticeship levels**

There are various levels of apprenticeship your son or daughter could apply for depending on their current skills and qualifications. Apprenticeships have equivalent educational levels:

- Intermediate 2 requires 5 GCSE passes at grades A\* to C
- Advanced 3 requires 2 A level passes
- Higher 4,5,6 and 7 requires Foundation degree and above
- Degree 6 and 7 requires Bachelor's or master's degree

All apprenticeships will include elements of on the job and off the job training leading to industry recognised standards or qualifications. Some apprenticeships will require an assessment at the end of the programme to assess the apprentice's ability and

competence in their job role.

#### Salaries

The minimum wage for apprentices is £3.50 per hour, but many employers pay more than this. This is dependent on the sector, region and apprenticeship level e.g. some higher apprenticeships can pay as much as £300 - £500per week. More details on salaries and entry criteria in specific apprenticeship occupations can be accessed by looking at the vacancies on 'Find an

apprenticeship'.

#### N.B From September 2017

Adjustments will take place in order for people with learning difficulties/disabilities to have an equal opportunity to gain the skills offered through an apprenticeship; English and Maths requirements will now be adjusted to Entry Level 3 Functional Skills. For more information on Apprenticeship specification please look at: <u>https://www.gov.uk/government/uploads/system/</u> <u>uploads/attachment\_data/file/630068/Specificatio</u> <u>nof\_Apprenticeship\_Standards\_for\_England\_.pd</u> <u>f</u>

#### Traineeships

You can expect three things from a traineeship:

- high quality work placements where you can learn what's expected of you in the workplace, and develop links with local employers
- flexible training in other relevant areas to help you get ready for work, such as job search and interview skills, time-keeping and team working
- study in English and maths (if appropriate) employers value these essential skills very highly.

At the end of your traineeship, if there is a job or apprenticeship vacancy with the work placement host, you should receive an interview. If there isn't a job or apprenticeship opportunity at that time, you will receive an exit interview with the employer who provided the work placement. In this interview you can discuss what you've learned, and how it might help you with things like updating your CV and getting into a job or an apprenticeship.

Whether you go for a traineeship or apprenticeship will depend on your age and qualifications.

#### Which qualifications will you get?

All traineeships are the same level.

- 16-24yrs and qualified below level 3
- 16-25yrs with learning difficulties.

#### What sort of experience will you need

You must be:

- out of work with little work experience
- working for less than 16 hours a week
- leaving school/college
- finding it hard to get an apprenticeship
- not sure you have the skills for an apprenticeship.

#### How long does it last?

Six weeks to six months.

#### How much will you earn?

Traineeships are unpaid but most pay travel and meal costs.

#### **Supported Internships**

Supported internships are a structured study programme based primarily at an employer. They enable young people aged 16-24 with an Statement of SEN, a Learning Difficulty Assessment or an Education, Health and Care plan to achieve sustainable paid employment by equipping them with the skills they need for work, through learning in the workplace. Supported internships are unpaid, and last for a minimum of six months. Wherever possible, they support the young person to move into paid employment at the end of the programme. Alongside their time at the employer, young people complete a personalised study programme which includes the chance to study for relevant substantial qualifications, if appropriate, and English and maths.

You must be: Page | 28

Access to Work has been revised. Changes include:

- the provision for a supported employment provider to make an application on behalf of an education provider (education providers can still make the claim if they would like to do so);
- a move from one form per month, to one per placement for each student; and
- the ability to make applications up to three months in advance.

Young people on or about to start the work experience placement of a supported internship, or traineeship with a disability or health condition, can apply to the Department for Work and Pensions' Access to Work fund. An Access to Work grant can cover the additional support a young person may need for the inwork element of supported internships or traineeships and can fund:

- Job coaches (where they support interns directly in their work placements, other support provided by a job coach, e.g. life skills activity and any educational activities will need to be funded separately);
- Specialist equipment for days that a young person is at the employer's premises; and
- The extra fares to work if the person is unable to use public transport.

There is no set amount for an Access to Work grant, and how much an individual receives depends upon their circumstances. Completed applications should be sent to the dedicated Access to Work team at :

## **Paid Employment**

Like anyone else, young people with additional needs, who have reached school leaving age, are entitled to apply for work, whether full-time or part-time.

The Equality Act 2010, which replaced the Disability Discrimination Act 1995, requires employers not to discriminate against people because of their disability, and to make reasonable adjustments so that they could do the job. This applies both when they are employed and when they are applying for a job. If an employer discriminates against them, they (and their parents) can put a case to an Employment Tribunal. If they win the case, they may be able to claim for financial loss and damages for injuries to feelings.

A complaint form can be obtained from a Jobcentre or a Citizens Advice Bureau (CAB). CABs can also give advice about the complaints process.

As we all know, the employment situation is not easy, but it is also not impossible. Young people with additional needs regularly get both full and part time work. It does however often take a great number of applications and effort on behalf of the young person and their parents. If you contact your Additional Needs Pathway Coordinator (See Contact Details p37) they will be able to advise you how to mount a campaign to look for work. Additional Needs Pathway Coordinators will keep in contact and continue to guide young people through their job search.

Young people claiming Employment Support Allowance (ESA) and Jobseeker's Allowance (JSA) who are actively seeing work can ask the Job Centre for support. Job Centres have specialists called Disability Employment Advisers (DEA) and Work Coaches who may be able to help. Contact details can be found at: https://www.gov.uk/contact-jobcentre-plus

You can also be asked to attend the Work Programme which can help you prepare for work if you are claiming either JSA or ESA. The Disability Employment Adviser/Work Coach can refer you to Papworth Trust or Seetec. (Seetec is a national organisation and is based at Henry Giles House). They see customers with all health conditions and should offer appropriate support.)

Papworth and Seetec can provide support in job seeking activities and the Work Programme. There are some mandatory referrals but anyone on ESA can volunteer to attend the programme if they wish. The referrals are made to each organisation on a random basis so customers cannot usually specify which provider they wish to attend.

### Employment, Finance and Transport Finance

#### 16 – 19 Bursary

The 16-19 Bursary Fund helps 16- to 19-year-olds continue in education, where they might otherwise struggle for financial reasons. It is made up of two parts – bursaries of up to £1200 a year to the most vulnerable young people and a discretionary fund for schools, colleges, academies and training providers to distribute.

Young people in the defined vulnerable groups will receive bursaries of £1200 a year. This group is made up of children in care, care leavers, those on income support and those in receipt of both Employment Support Allowance (ESA) and Disability Living Allowance (DLA) / Personal Independence Payment (PIP).

Providers can distribute the rest of the money to support any student who faces genuine financial barriers to participation such as costs of transport, food or equipment. Providers will have the freedom to decide the scale and frequency of bursary payments. A bursary may be conditional on students meeting agreed standards, for example, behaviour and attendance.

The 16-19 Bursary Fund is administered by providers. Young people need to apply directly to their academy, school, college or training provider for support from the scheme.

For further info please go to: http://www.cambridgeshire.gov.uk/residents/childr en-and-families/schools-&-learning-costs/16-19bursary-fund/

#### Child Benefit / Tax credits

If you are already receiving Child Benefit or any other related benefits such tax credits, you may continue to receive them until your son/ daughter turns 20 or until they leave full-time education if this is sooner. You will need to tell the Child Benefit Office if your child is continuing in full-time further education. For further information www.hmrc.gov.uk/child-benefit/ Tel: 0300 2003100

#### Employment and Support Allowance (ESA)

Following their 16th birthday your young person may be eligible to claim an incapacity related and/or income related benefit in their own right.

ESA can be paid from a young person's 16th birthday. Entitlement to this benefit will depend on passing an assessment for capability for work, and may involve a medical assessment. There are two separate elements to ESA: contributory ESA (CESA) is dependent on having paid enough National Insurance contributions and incomebased ESA which has separate rules about savings and income.

To qualify for income-based ESA while in full-time education, young people must also be entitled to DLA / PIP.

It is worth seeking expert advice for a detailed calculation before applying, due to the impact on other benefits, such as Child Benefit and Child Tax Credit.

To apply for Employment and Support Allowance if your son or daughter is 18 - 25 phone the Job Centre Plus Contact Centre on 0800 055 6688.

http://www.gov.uk/government/publications/emplo yment-and-support-allowance-claim-form

It is intended that Universal Credit will replace income based ESA and other benefits at some point before 2017.

#### Jobseekers Allowance (JSA)

Once your son / daughter is 18 and leaves school, if they are ready to enter work and are looking for a job they will be able to apply for JSA. Help may be available at their job centre through a Disability Employment Adviser or Work Coach. To apply phone 0800 055 6688.

#### **Employment, Finance and Transport**

#### Disability Living Allowance (DLA) / Personal Independence Payment

Many young people at special schools receive Disability Living Allowance. This is paid if a young person needs significant amounts of help to care for themselves or to move about. It is made up of a care component and a mobility component.

#### www.gov.uk/dla-disability-living-allowance-benefit

DLA for people aged 16 and above is being replaced by a new benefit called Personal Independence Payment (PIP). When a young person reaches 16 their DLA is likely to end and they will be invited to claim the new Personal Independence Payment. It also has two parts - a daily living component and a mobility component.

### **Transport post 16**

Post 16 students will be expected to walk or use public transport to their educational provision unless they have a special educational need or disability which prevents them walking or accessing public transport (bus or train) or a bus service contracted by the council. Post 16 students who are unable to access public service transport or walk to school/college are able to apply for post 16 SEN transport. The student must be enrolled on a full time course either in school (mainstream or special) or College of Further Education. This must be the nearest appropriate centre to their home address offering an appropriate course for that student.

If these criteria have been met they may be eligible for subsidised transport up to the age of 25.

Further information regarding post 16 transport can be found at:

## Social Care options for young people

#### Social Care Options for young People – Preparing for Adulthood:

Support to help young people to prepare for adulthood should start as early as possible and at least by the age of 14. It should be focussed on outcomes that are important to the young person.

Children's Disability Services will work with children with a learning disability up to 18 years of age. The Young Adult Team will then take over and continue to support the young person up to 25 or as needed.

For other young people the Adult Social Care Teams (Physical Disability, Mental Health, Sensory, Autism and Adults Support Team (formally Vulnerable Adults) will often start to work with young people at age 16 to assess and develop adult support plans in readiness for the move to adult support.

For adults (over 19 years) with additional needs there are day opportunities that offer a range of activities which is normally funded through social care (depending on social care threshold).

N.B Come April 2018 all young people who are 18 after this date (apart from Mental Health and Physical Disability Teams) will go through the Young Adult Team if they have an EHC Plan.

For young people with learning disabilities who do not need social care before 18 years old, the Learning Disability Partnership Young Adults Team will start to work with them from age 16 to assess and develop adult support plans in readiness for the move to adult support.

For those who are likely to require support in adult life, they will need to be identified and placed on the Preparing for Adulthood Tracker via the Statutory Assessment Resources Team (START).

For more information about what services are available for your young person visit: www.cambridgeshire.gov.uk/careandsupport

There is information about Supported Living, Self-Directed Support, Domiciliary care, and a range of choices for health and social care services.

### Housing / Accommodation Options

## How do I find out what is right for me?

It is important that you think about what sort of housing you will need now or in the future. For example, do you want to live on your own or share with other people and will you need support?

Housing and support can be provided as a "package" but "pick and mix" arrangements which match individual requirements are increasingly common, particularly if someone lives on their own. If a young adult feels that they will be able to live independently, with the support of your family and friends, then you should get a housing application form from your local council's Housing Department so that you register the fact that you need accommodation.

You should include any information about having a learning disability on this form as this may mean you are given some priority as being vulnerable under the Housing Act.

There are quite long waiting lists for housing but registering as early as possible will help. To get a form and find out more about your options you can contact your local housing team.

If you feel you will need support then it is important that you have your needs assessed by your Adult social care team.

The care manager will work out with you what level of support you will require and what type of housing and support package will best suit your needs, and will also help you to fill in housing application forms.

## Some housing and support options to choose from:

- Registered Care (regulated by the Commission for Social Care Inspection)
- Registered care homes
- Registered care homes are generally larger than group homes (see below) and can have twenty or more residents, although many are

much smaller with typically three to nine residents.

 Personal care and full board are provided, and there's usually 24-hour staff cover.

#### **Shared Lives scheme**

In an adult placement (sometimes called 'adult fostering'), the local authority supports and supervises families who provide a place in their own home.

Some of these are registered while someone less disabled may be in supported lodging in an adult placement scheme, where they rent a room or bedsit in a family home and receive minimal support.

#### **Supported housing**

Supported housing takes many forms - it means any type of housing and support which is not a registered care home. Although not inspected and regulated in the same way as registered homes there are systems for checking that these services are safe and of good quality.

- Support agencies which provide personal care are registered with and inspected by the Commission for Social Care Inspection.
- The social and health care staff from the learning disability team continues to support and review people who take up places in supported housing schemes. Group homes (or shared housing)

Group homes are usually smaller than registered care homes, with three or four people sharing. Support staff either visit regularly, or are there during the day and sometimes also overnight as well.

People who live there have tenancies and may do their own shopping, cooking and housework, with help from staff.

#### **Cluster housing**

Cluster units, either on one site (like sheltered housing for older people) or occasionally spread across a neighbourhood. Support staffs are usually on hand and there may be shared facilities such as a laundry and communal lounge. Flats or bed-sits are self-contained.

This type of housing is often suitable for people who want to live more independently than in a home but still have some support.

#### Individual placements/renting

More people with learning disabilities are now renting properties from local authorities, housing associations, or private landlords and receiving "outreach" support - this means that someone will visit regularly and help with various aspects of daily living. There are also a few companies who specialise in renting to people with learning disabilities.

#### **ROMSEY MILL**

Youth Development Team Boosting confidence and achievement

We are a team of youth workers who love young people and are passionate about supporting them to overcome challenge, live fulfilling lives and inspire change in the world around them.

#### Who we support:

We work with young people aged 10-21 years who need extra support to overcome challenges in their lives. This is likely to include young people who:

- Are exposed to difficult home situations.
- Struggle with mental health issues including self-harm, anxiety and depression.
- Have been involved with the criminal justice system.
- Have issues with drugs or alcohol.
- Are engaged in anti-social or risky sexual behaviour.
- Are at risk of exclusion, excluded or disengaged from mainstream education.
- Are at risk of becoming, or are already, NEET (not in employment, education or training).

#### What we do:

Our work can broadly be divided into two categories:

- Commissioned alternative education and early intervention support, including:
  - Pastoral care.
  - Our 'Step-Up' personal and social develoment course (team work, adventurous activities, enterprise, youth culture, healthy relationships and life skills)
  - Accredited courses, such as Arts Awards, home cooking skills and sports leadership.
  - Maths and English support.
  - Primary school group work and transfer support.
- Community-based, rerlational youth work including:
  - Open-access youth clubs.
  - Creative arts and music studio sessions.
  - Sports projects.
  - Youth leadership programmes.
  - o Adventurous activity residentials.
  - Enrichment trips.

For more information about activities, contact Mike Farrington, Youth Development Team Programme Coordinator, on 01223 566392 or <u>richard.beckett@romseymill.org</u>

#### **Castle Supported Housing:**

At Castle we're particularly experienced at supporting young people who have had mental health problems and/or are preparing to leave care.

We offer a range of shared flats and houses in Cambridge for young people aged 16 to 25 to live in. This housing is for any person within the age range who is in need and who wants support to gain full independence in the future

#### Community

Fenland Wellbeing provides a community based service for people in North Cambridgeshire living with mental health problems. Our community wellbeing programme helps increase confidence, overcome mental health problems and help people move on to more independent living
