

Space themed activities

- Can you create a factfile about the planets?

Where could you find more information about the planet?

Use the symbol sheet to help you describe them.

- Can you create a character for a space adventure story?

There are some suggestions on the symbol sheet if you need some help deciding what they may be!

- Get your playdough out! Can you make an alien? What about an astronaut?

- Can you use your playdough too make the number on the ten frame, then, using another colour, make enough balls to have ten in total? How many did you start with? How many did you add? Did you make ten?
