Tony Orgee

I have been a Governor of Granta since it opened. My own background is in education: as a teacher, in teaching education and educational research, and then working for a major national and international examination board based in Cambridge, including acting as a consultant for British Council funded projects in Russia. I have subsequently been involved in educational consultancy for the world bank. My work has taken me to Armenia, Brunei, Lesotho, Russia and Tajikistan. I value the work of special schools and hope that my background both in education and in local government can help, contribute to and support Granta School. I am on the Curriculum committee and Chair of F,P,H,S.

David Jones

I have been a Governor since the school first opened and before that was a governor at Green Hedges, one of the schools that closed when Granta was created. So, I have 20 years experience of being a school Governor. My daughter attended Green Hedges and then Granta school, so i was keen to support the school and the leadership team. This desire to give something back continues hence my willingness to continue as a Governor after my daughter left, and my continued Chairmanship also of the Cambridgeshire Joint Playschemes, which many Granta children use during the holidays. I am really proud of the quality of education Granta delivers and the many innovations introduced over the years by the staff and leadership team. I am on the F,P,H,S Committee.
