

Panda Activity

Week 2 April 27th 2020

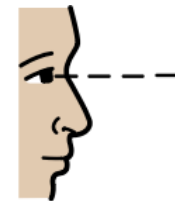

Go

on

a rainbow

spotting

walk.

You might see rainbows in windows, on the pavement or even in the sky if you are lucky.

How many can you spot?

Paint a non-messy rainbow for your window!

Put blobs of paint in a rough rainbow shape onto paper.

Carefully slip this into a large zip-lock plastic bag.

Tape the bag onto the table top so it doesn't slip about.

Use your hands to mix and swipe the paint under the plastic.

Carefully take out your finished painting and put up in your window.
