Cross the Pond Game Counters

Cross the Pond

Game Instructions

This is a game for 2 to 4 players. Help your frog to build a path of lily pads to cross the pond to his home.

How to play:

1. Begin by giving each player a game board and spreading the picture cards out in the middle of the playing area. Turn all the picture cards upside down.
2. Then take it in turns to choose a picture card. If you find a lily pad picture, you can put it on your game board – the circles show you where to build your path. If you find a duck or a fish put the card back in the middle, upside down.
3. Continue taking it in turns to choose cards and build your lily pad path. The first person to build the path all the way across the pond is the winner!
